

KernSafe Technologies Limited

Reseller Program

KERNSAFE
Secure Storage Solution

KernSafe is global leader in storage virtualization and data security solutions from desktop to the data center. Our costumers vary from individuals, through middle size firms and finishing at big multinational companies. We are dedicated to produce the highest quality software possible and, at the same time, provide the outstanding customer support. As one of the fastest-growing public software organizations, KernSafe is producing software that is easy to use but can also benefit in professional solutions. You can check KernSafe products offer on our website www.KernSafe.com.

Resellers are very important to us, because thanks to their help we are able to provide our products on international markets on which it would be difficult to do on our own. Because who can know their markets better than the people itself? Therefore we are proud of each and every one of our resellers that brings high quality service to our customers.

Benefits of being a Reseller

- Purchase products at a discounted rate
- Adding new products to your sales offer
- Becoming more attractive on market
- No minimal sales requirement
- Support provided by KernSafe specialists
- Being featured on our website

How to become a KernSafe Reseller?

Becoming our reseller is easy and simple. Read and acknowledge our Legal and Privacy Policy as well as Software Reseller Agreement, whereby fill out the form attached below and send it to us. After your application will be reviewed, you will be informed about it on your e-mail address. Then you will receive a special coupon that will allow you to purchase our products at a special discounted rate.

Resellers Responsibilities

- Providing high quality service to customers
- Providing all necessary information about our products to costumers
- Providing direct billing to their customers
- Providing direct technical support to their customers

Legal and Privacy

KernSafe Technologies Limited is committed to protecting your privacy. We will only collect your personal information for defined purposes. We do not distribute or share your personal information beyond what is strictly necessary to fulfill our obligations to you. We may share your information only with partners who adhere to KernSafe's commitment to protecting your privacy. KernSafe will not sell your personal information in any manner whatsoever.

What information do we collect?

What do we use it for?

When you place an order on our website, your full name, company name, mailing address, phone number and address will be required. The information is used to complete the transaction and help us provide better support and services to you.

How do 3rd party credit card processors protect customer information?

KernSafe Technologies uses secure server hosted by RegNow and PayPal credit card processors that encrypt all the customer's personal information including name, address, credit card number, credit card expiration date etc, before it is sent to us. Encryption works to prevent any malicious use of your personal information. Your credit card information is only used for online transaction.

RegNow

RegNow is part of the Digital River family of companies - a group of highly trained e-commerce and e-marketing specialists committed to providing companies big and small with everything they need to successfully build, manage and grow profitable online businesses

on a worldwide basis. Some of the world's leading multi-national companies with some of the Internet's biggest brands use Digital River's portfolio of comprehensive ecommerce technology, tools and services to drive online results. Founded in 1994, Digital River (NASDAQ: DRIV) is headquartered in Minneapolis, Minnesota, with offices located across the United States, Europe and the Asia Pacific.

PayPal

PayPal is the safer, easier way to pay and get paid online. The service allows anyone to pay in any way they prefer, including through credit cards, bank accounts, buyer credit or account balances, without sharing financial information.

About cookies

In order to better understand what services are valuable to our customers, we use "cookies". A cookie is a small text file that a Website writes to your hard drive. Cookies work as your identification card and may record passwords, preferences and purchases. Cookies let the web page server know that you have returned to this site. Cookies also can determine other information, such as the daily visitors to our website and the pages of the site most frequently visited. Cookies are unique and can only be read by the server that assigns them. They cannot be executed as code or deliver viruses. You can change the settings in your browser to prevent cookies if you do not want to have a cookie set when you visit our website. However, by doing so, you may not have full access to all the web pages.

Link to Other Sites
